Floor Protective Coatings

Product Technical Data Sheet

Product Description

DP FLOOR 303 is a modified two-component epoxy resin based primer.

Intended Uses

As a primer on concrete surface to provide an excellent adhesion to epoxy, epoxy PU or polyurethane based floor coating top coats.

Product Information

Chemical Base	: Epoxy Polyamide
Colour	: Clear
Surface Finish	: N/A
Consumption	: 0.170 kg/m ²
Thickness	: 0.1 mm
Recoating Interval	: Minimum 4 hrs
Curing	: 7 days

Requirements

Concrete or substrate should be a minimum of 25 N/mm². Substrate moisture content – < 4% by wt. Dew point of substrate should be 3°C above atmospheric dew point.

Application Procedure

Carry out preparatory work and application in accordance with Doctor Paints or its approved applicator's instructions.

Use a stirrer, DO NOT MIX BY HAND. Stir the components thoroughly before mixing them in the given ratio. Mix resin with a hardener and use it before given pot life.

Application is done by pouring the mixture on clean, dust free, grinded surface and it is spread with help of trowel.

Do not apply when the temperature falls below 10°C or when relative humidity rises above 90% or during rain, fog or mist.

Mixing Ratio	: 2:1 by wt.
Pot Life	: 30 min
Thinner/Cleaner	: Any thinner
